Hypoport's outlook for the year 2015ff

We will consistently continue to pursue our strategy of acquiring additional market share in all business units. At the same time we increasingly use the positions we gained to improve our profitability.

Main focus for our business unit Financial Service Providers is an ongoing increase of the penetration of market segments with our market place. In addition, the integrational depth of consumers shall be increased by an expansion of our product and service portfolio.

In our business unit Private Clients we seek a strong development of the loan brokerage business, restructuring of the insurance business and methodic improvement of our margin structure.

Our business unit Institutional Clients will continue its sustainable growth, benefitting from its innovation leadership in the industry sector and the expansion of the product portfolio.

For 2015, Hypoport expects light double-digit growth of revenue and EBIT.
