Hypoport will continue its profitable growth
Hypoport’s outlook for the year 2015

We will consistently continue to pursue our strategy of acquiring additional market share in all business units. We shape markets through product innovation and expand our technological lead. At the same time, we increasingly use the positions we gained to improve our profitability.

For our business unit Private Clients, we strive for a strong development of the mortgage finance business, restructuring of the insurance business and methodic improvement of our margin structure.

Our business unit Financial Service Providers will improve the ongoing increase of the penetration of market segments with our market place. In addition, the integrational depth of consumers shall be increased by an expansion of our product and service portfolio.

Our business unit Institutional Clients will continue its sustainable growth, benefitting from its innovation leadership in the industry sector and the successful expansion of the product portfolio.

For 2015, Hypoport expects double-digit growth in revenue. In addition, Hypoport anticipates a rise of the EBIT margin and, as a result, disproportionate growth in earnings.
