Hypoport raises its earnings forecast for the 2015 financial year

Berlin, 21 April 2015: Having evaluated its consolidated management accounting figures for the first three months of this year, the Management Board has raised its earnings forecast for 2015.

Based on its management accounting figures, Hypoport expects to increase its earnings for the first quarter of 2015 to an EBIT of €3.8 million (Q1 2014: €3.1 million). It is predicting revenue of €33.0 million (Q1 2014: €27.9 million) for the first three months. Given the strong start to 2015, the Management Board has revised its forecast for the year as a whole.

The Company anticipates that its revenue for 2015 will grow at a low double-digit rate. It also expects to widen its EBIT margin and, consequently, to achieve disproportionately strong earnings growth.

Hypoport will be publishing its financial results for the first quarter of 2015 on 4 May this year as planned.
