Q2/2015: Earnings after two months are well above the entire second quarter of 2014

Berlin, 19 June 2015: Based on the consolidated management-accounting figures that were evaluated at Hypoport AG's Management Board meeting today, EBIT for April and May 2015 is expected to be at least €3.5 million.

The Managing Board of Hypoport AG believes that earnings for the second quarter of this year will be significantly higher than those for the same period last year (Q2 2014: €1.1 million) and consequently earnings growth in the first half of 2015 will be disproportionately strong.

"Although this excellent result is still within the level we forecast, we are delighted to be able to inform our shareholders about these strong figures outside our regular reports. At the same time, we are meeting BaFin's requirement for ad-hoc disclosures of imminent significant year-on-year changes in any quarter during the year," said Ronald Slabke, Chief Executive Officer of Hypoport AG.

Hypoport will be publishing its financial results for the first half of 2015 on 3 August this year as planned.

Information on Hypoport AG
